Mr. John Drexinger, Jr.  
Principal  
Pro-Tech Energy Solutions LLC  
3322 Rt. 22 W., Ste. # 1502  
Branchburg, New Jersey 08876

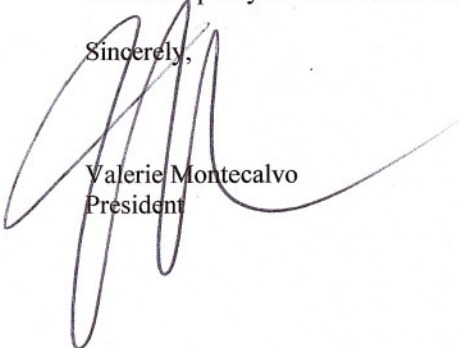

Dear John:

It is my pleasure to write this letter of recommendation on your behalf as you proceed with the successful growth of your new company, Pro-Tech Energy Solutions LLC. You have demonstrated your commitment to growth of the solar industry and also our company as if we were your only client. In fact, you have continued to act in a supporting role even after the completion of our 600-KW solar project and prior your subsequent move to Pro-Tech Energy Solutions LLC.

As we developed our project in its early stages, your belief that this solar project would be built gave us great comfort. It is clear to me that your attention to detail and customer service have been exemplary. You have also demonstrated your grasp of current trends in the renewable energy technology and that you are not solely committed to one solution. Rather, you have the technical expertise and flexibility to formulate the solution that is best suited to the client's needs without sacrificing quality of workmanship.

My husband and I would like to extend our gratitude to your long term commitment to Bayshore Recycling Corp regarding the client/solar integrator relationship. Please do not hesitate to contact me should you require a referral. It has been a pleasure working with you in the past, and I look forward to continuing our relationship as you move forward with Pro-Tech Energy Solutions LLC.

Sincerely,

  
Valerie Montecalvo  
President
