Mr. John Drexinger, Jr.
Principal
Pro-Tech Energy Solutions, LLC
3322 Route 22 West, Suite 1502
Branchburg, New Jersey 08876

Dear John:

It is my pleasure to write this letter of recommendation on your behalf as you proceed with the development of your new company, Pro-Tech Energy Solutions LLC. Throughout our working relationship, you have consistently demonstrated your commitment to our company as if we were your only client. In fact, you have continued to act as a "partner" with Hall's Warehouse even after the completion of our 3.2 Megawatt solar projects and prior your subsequent move to Pro-Tech Energy Solutions, LLC.

As we have worked through various projects, it is clear to me that your attention to detail and customer service have been exemplary. You have also demonstrated your grasp of current trends in the renewable energy technology and that you are not committed to one solution. Rather, you have the technical expertise and flexibility to formulate the solution that is best suited to the client's needs without sacrificing quality of workmanship.

My brothers and I would like to extend our gratitude to your long term understanding of the client/solar integrator relationship. Please do not hesitate to contact me should you require a referral. It has been a pleasure working with you in the past and I look forward to continuing our relationship as you move forward with Pro-Tech Energy Solutions LLC.

Best regards,

William E. Jayne, III
President
